

E79 Resources Corp.

Symbol: TSX.V: ESNR

Market Cap: 16.7M

Sector: Mining

Purpose: Raise Awareness / Open Market Buying

E79 Resources is focused on exploring for Fosterville-type mineralization at its Beaufort and Myrtleford properties in the Victorian Goldfields, Australia. At Beaufort, an opportunity exists to explore for a hard rock source of a major alluvial goldfield along a structure that is known to host gold in the region. The Myrtleford property represents the consolidation of an entire historic gold camp with over 70 past producing gold mines on the property, where the bulk of historic mining stopped at the water table. The Company continues to evaluate corporate development opportunities in the underexplored and historically prolific Victorian Goldfields.

Investor Bullet Points:

- Priority Ground in the Victorian Goldfields secured during market downturn in 2017 & 2018
- Target rich environment with a structure known to host gold in the region, a 2km long gold-arsenic-antimony anomaly across that structure and gold nuggets found in the gullies beneath the structure
- Highly credible management team

Rory Quinn, CEO

- 15 years of capital markets experience in the global gold mining space and is the former Director, Investor Relations, at Wheaton Precious Metals (previously Silver Wheaton).
- During tenure at Wheaton (2012 to 2019), worked on acquisitions totalling over US\$6 billion as the company built its precious-metals business.
- Involved in the review of hundreds of mining companies and mining assets from large precious-metal producers to earlier-stage developers and explorers in assessing high-quality investment opportunities around the globe
